

Season's Greetings

We are thankful to everyone who supported Dutch Hollow genetics by purchasing cattle from us in 2014. We wish you much success.

In addition, we thank the Board of Directors of National Dairy Shrine for choosing us for the Distinguished Breeder Award. Even more, we are grateful to those who put forth and supported our nomination. But especially, we have been so touched by the warm notes and kind words received, and so honored that many could be there with us in Madison. A special thanks to the Jersey staff for the wonderful presentation. As we look back across the years, and forward too—the things that count to us are the friendships we share with you and our common purpose of advancing the Jersey breed. How fortunate we are to be members of this wonderful community and wish everyone a joyous holiday and a great new year.
